I am making an app for iOS, and I want to put a huge image on the HomeScreen, how do I do this? A: In the App Delegate let storyboard = UIStoryboard(name: "Main", bundle: nil) let controller = storyboard.instantiateViewControllerWithIdentifier("Home") as! UIViewController controller.view.backgroundColor = .white self.window.rootViewController = controller In the viewController override func viewDidLoad() { super.viewDidLoad() // Do any additional setup after loading the view. let imageView = UIImageView(frame: CGRectMake(0, 0, self.view.frame.size.width, self.view.frame.size.height-200)) imageView.image = UIImage(named: "path") self.view.addSubview(imageView) } Don't forget to change the height of the viewController, otherwise the image won't show. A: In viewDidLoad: UIImageView *imageView = [[UIImageView alloc] initWithImage:yourImage]; [self.view addSubview:imageView]; [imageView release]; In viewWillAppear: [self.view layoutIfNeeded]; [super viewWillAppear]

Sep 15, 2011 MX vs. ATV Reflex - MX vs. ATV Reflex is an off-road racing video game developed by Rainbow Studios and published by THQ. It is the third game in the MX vs. Oct 21, 2011 This game was released in 2010. It is the 3rd in the MX vs. series I dont think there is a free download. It only gives you a cracked version. If you want to play it you have to buy it. May 22, 2013 Obtaining the newest software is easy if you know what you're doing. Just go to websites like NMM and download the.rar and.tar versions. For example, for MX vs. ATV Reflex, I downloaded the MX vs. ATV Reflex_2.0.6.rar, which is the newest version at the time of this writing. Mar 21, 2014 If you're too lazy to install and use NMM or want to do it yourself, this guide is for you. [Read More] Oct 27, 2014 You may get errors as soon as you start the game, but that's because you have some DirectX errors. A few people have had this problem after running a system restore. It'll fix it for you, but you'll have to start again.
