Read on for a look at FIFA 22 training and gameplay insights, including motion capture, game modes, balanced skill-based progression, and more. The PlayStation 4 and Xbox One versions of the game will be released on October 2. FIFA 22 Training Insights Through motion capture, players in FIFA 22 will be able to control the ball with a more natural feel, making the ball feel lighter, faster and more flexible than ever before. On top of that, players can take advantage of a brand-new series of dribbles that will feel more natural and responsive on a variety of surfaces. New Training Features FIFA 22 introduces motion capture technology that unlocks a new way to train. Player movement dynamics in the game have been tuned to match the real-life movement of each player. The goal is to provide a true-to-life and authentic feeling of game play, on top of the authentic physics and ball control systems. Training with FIFA 22 will challenge you on your own terms. In the world of FIFA, you'll be able to interact with players in different environments, learn from real-life footage and train with up to nine friends through high-intensity dribbling and tackling challenges, such as One Touch and Tactical Dribbling drills. FIFA has always enjoyed the benefits of a rich and diverse player base, that brings unique styles, speed and techniques to the table. In FIFA 22, you can choose from seven different game modes, from classics like 5-vs-5 to new experiences like Volta, or take part in a variety of ways to help the development of your tactics and tactics in FIFA 22. FIFA will also incorporate a new coaching mode, which is not included in

the training mode. FIFA 22 has been designed to be a fun, entertaining and social experience, with rewards and progression tied to your gameplay. FIFA 22 also provides great opportunities for community interaction and cross-platform play, with the ability to play against your friends on the Playstation 4 or Xbox One. Further information on training in FIFA 22 can be found below: Training in FIFA 22 HyperMotion Technology FIFA 22 introduces the brand-new HyperMotion Technology to put the ball control in the player's hands. This brings the best of both worlds: the responsiveness of playing the ball with player's natural movement, and the control of FIFA's ever-evolving physics engine. For those

Challenge Friends and rivals to the ultimate FUT contest as you use your squad of players to win the ultimate prize in the Ultimate Leagues. Play Online to compare skills in 1v1 and 2v2 matches, or connect to a friend to play online, or join a Ranked Team to play against players worldwide. FUT Draft Mode - Build the Ultimate Team from players and fantasy team kits in an extensive, unique, and off-the-cuff Draft process. The FUT Draft process allows you to give players attacking attributes, but when they produce for you, they earn coins that boost their value, giving you even more control over your team. Take charge of your Ultimate team, and determine how you want your team to be built through the multiple stages of a FUT Draft. GAMEPLAY 2-2-2 - FIFA 22 benefits from a great base of gameplay depth, including an improved system of play, more variety of player movement and its enhanced ball-based physics system. It's as dynamic as anything in the long-running series, and you'll notice that it's faster than most of its contemporaries. While it's true that it also offers some new and innovative gameplay modes, it makes heavy use of some of the mechanics that we've seen in previous versions of the FIFA franchise. Like in previous FIFA games, there's still plenty of room to refine your offensive or defensive tactics, which will depend on what you find works best for your own playing style. Improved engine - The engine is noticeably smoother and faster. AI is more reactive and natural, as it delivers accurate passes into space. Improved goalkeeper AI and reaction has made defending even tougher. The engine is also richer in visuals. Ball Physics - The soccer ball remains round, never bouncing between sides. As a result, players can be dribbling it around and around the midfield or defence without it going astray, adding to the ebb and flow of the gameplay. Dynamic Player Behaviour - FIFA 22's dynamic player behaviour has been enhanced. Players' physical attributes will continuously change as the game progresses, meaning

that each player has a unique 'personality'. Motion Iconic Tackles - Player's run towards the ball, get up, and tackle the ball are now more reactive, adding to the flow and unpredictability of the game. More ways to earn the chance to score - The ball is now
